ELECTRIFICATION ... is PRIVATE ENTERPRISE AT ITS BEST!

> In the early 30's, rural electrification was at a standstill. Scattered farms were supposedly too costly to reach. Only one farm family in ten had or could get electric light and power at a price it could afford.

Then, in 1935, came the Rural Electification Administration. Rural people like us could form groups, incorporate, borrow funds—at modest interest rates—from REA, and build lines to serve ourselves.

Up to now about 1,000 rural electric systems from coast to coast have borrowed \$31/2-billion from REA, to build 11/2million miles of line which serve over 15million rural Americans. Over \$1.1-billion in principal and in-

terest has already been repaid to the United States Treasury—on or before due date. And 97% of all Americans who live beyond the city limits are now being served. This, we submit, is private enterprise at

-KEEP ALABAMA'S PLACE IN SPACE-

THE SPACE AGE has meant that you as a citizen of Alabama have been a part of the most dramatic development in the history of the human race. This has significance for the farmer in Dothan, the businessman in Montgomery, the school teacher in Gadsden, the housewife in Selma, the industrial worker in Birmingham and Mobile, the doctor in Greenville. It has significance for YOU wherever you live in Alabama. It means more jobs and higher wages . . . additional brain power for our schools and industries . . . and a higher standard of living.

FURTHER CONSTRUCTION . . . through the Alabama Research Institute, an agency of the University of Alabama - will spark the growth of industry throughout the state.

THIS IS NOT A TAX . . . it is a bond issue for \$3,000,000. It could yield billions in return. The bond issue is needed to construct and equip the Research Institute Building. But, operating costs will be paid by contracts with the government and industries. It is anticipated that the Research Institute will be self-supported! Remember! It won't cost you . . . It wi

IF THE NECESSARY RESEARCH ENVIRONMENT is not provided in Alabama, the opportunity we now have will go to another State. California, Florida, and other states are making every concerted effort to attract the space agencies we mistakenly take for granted in Alabama. YOU CAN HELP by going to the polls December 5th and voting YES on Amendment No. 2. Encourage your friends and neighbors to vote with

WHEN YOU VOTE on December 5th, remember these facts:

1. Amendment No. 2 will provide new space-related industry in Alabama . . . new payrolls for our people. 2. Amendment No. 2 is a bond issue - no school money will be used

to pay these bonds. 3. Amendment No. 2 does not require any new taxes.
